

1 FREE MONTH OF SUPPORT

*JULY
News Letter*

DNA has started a new customer referral program.

Starting July 1st 2020, simply refer an organization in need of great IT support to us. When the referred organization becomes a DNA client, your account gets credited 1 month of free service.

Spread the Love, and get *Rewarded* in 3 simple steps!

- 1) Refer an Organization in need
- 2) They sign up with DNA, and get a trusted IT Partner
- 3) You get 1 month of Free Support credited to your account.

"Zoom announced this past week that those who use the video platform for free will no longer have encrypted calls and that this new change will happen sooner than later..."

Avon recovering after mysterious cyber-security incident

Cosmetics giant Avon is recovering from a mysterious cyber-security incident that took place last week, on June 8, sources have told ZDNet.

The company has filed documents with the US Securities Exchange Commission disclosing the incident on June 9, a day after the company first discovered issues with some of its IT infrastructure

6 Questions to consider before implementing a Disaster Recovery Plan.

Systems fail. Unfortunately, we do not get to choose when systems will go offline due to compromise, theft, hardware failure, or act of God. But we can implement a disaster recovery plan and put into play a series of policies that, if adhered to, will go a long way towards allowing IT to bounce back from just about any failure on the horizon.
