DNA, your new ISP

The big are not your only options anymore. DNA has partnered with Litecloud, offering reliable and lightning fast internet service, at a fraction of the cost of our competitors. We provide fiber, installation, and all the peripherals necessary for connectivity, at the newest technology standards. Directly partnered with one of Maryland's largest Fiber manufacturers, DNA ensures unbeatable quality, price and lead times, for all of your Fiber, Cabling, and Data needs.

VOIP Phones and Security

Voice over Internet Protocol has recently become the optimal choice for businesses that aspire to merge their high speed internet with their phone system, greatly reducing overall costs. We have a variety of state of the art camera and infrastructure solutions to meet and exceed any of your company's security needs.

Fourth Industrial Revolution

The Global workforce is undergoing a massive technological shift that many are calling the "Fourth Industrial Revolution". According to a recent World Economic Forum report, nearly a third of the most important skillsets in 2025 will be compromised of technology skills

Referral Program

DNA Solutions is partnered with a trusted local fiber and telecom company by the name of Litecloud. This allows us to offer unprecedented savings on high speed internet and VOIP to your business. If any of our customers refer another business that signs with DNA, the referring party will receive **ONE MONTH OF THEIR SERVICE FOR FREE!** We ALL need help from our friends and these are stressful times, so let us help.
